Mr. Mashhour Mousa Al-Anzi

MISSION

We visualize ourselves as maintaining our Leadership in the field of contracting, trade and real estate development Subcontracting and Outstanding Quality through Exceptional Craftsmanship and Continuous Determination

VISION

To be Empowered to cater innovative modern and Exclusive products and must be self-explanatory about the workmanship excellence.

STRATEGY

Perceiving customer needs at utmost level by providing them flexibility in sourcing, competitive prices, on-time deliveries and customized solutions for unique needs

Mashhoor General Trading

Mashhoor General Trading Company undertakes several tasks of wholesaling solid, liquid, and gaseous fuels and related products. This sub-category includes the wholesale of solid, liquid, and gaseous fuels.

This includes:

1. Wholesale of charcoal and wood
2. wholesale of crude oil and petroleum products
3. wholesale of liquefied petroleum gas, butane, and propane
4. Wholesale of automotive fuels, lubricants, lubricants and oils

The commercial activity includes the purchase of large wholesale commodities and reselling them regardless of whether the goods are sold in an unchanged or variable state (work status, processing, and after processing). Goods can also be received and re-shipped.

It also provides services for exporting goods, meaning it can goods for companies and individuals alike. In the case of direct export, the

goods are transferred directly by the exporter, which in this case may be the product of the commodity or the service provider required outside the borders of the European Union without the need for an existing dealer or intermediary company Within the European Union. Mashhoor Company provides export packages for a wide range of industrial goods, as well as handling services for all goods and vessels, loading on trucks, and packing in containers. We work with experienced technical personnel in the field such as packers, stowage workers, crane drivers, truck drivers, forklift drivers, and welders, a highly efficient team that works "round the clock" to serve our customers. And our service is not limited to the ports alone, but we also offer you advice and flexible processing services related to production in your company. Our people follow the export operations from the start, providing advice on packing, loading, and securing of loads. We offer you the possibility to temporarily store your goods in our open and covered warehouse.

Mashhoor General Trading

Mashhoor company transports goods from one place to another through a fleet of merchant ships, ships, and containers, which can reach the farthest countries, in addition to its high ability to accommodate heavy-sized goods and transport very large quantities at once, shipping is by ship or as known as sea freight is the oldest shipping method in the world, and all countries of the world have their own commercial fleets.

Frigates vessels

Refrigerated ships are used to transport perishable goods such as fruits and vegetables, meat, and fish, and these ships are equipped with cooling devices of different degrees according to the type of goods to be shipped.

Containers

Mashhoor Company has containers of different sizes 20 feet and more and is characterized by facilitating the operations of loading and unloading and arranging goods inside ships with a system, which ensures the safety of their delivery.

Petroleum tankers

These ships are used to transport liquids such as petroleum, designed in the form of tanks and have pipes and pumping machines, and long partitions that divide them, and prevent the movement and vibration of liquids during the voyage, and sometimes these ships are used to transport grain, but when the tanks are clean.

Ships of gas

These ships are used to transport gases such as natural gas, when the distance between the areas to be connected to gas is not suitable for laying pipes, the gas is transported by this type of ship.

Mashhour For Construction Contracting And Real Estate Development

Mashhour Real Estate Services Company provides exemplary building and construction services with high-quality resources and off-site delivery methods, enabling its clients to construct prefabricated buildings by-laws and under strict control systems.

The company offers typical construction offers that is characterized by flexibility in design and planning, and these designs may be: temporary or permanent, small or large, single-story or multi-story, in the form of single or multiple buildings, or they can be organized in the form of complexes or camps, as the company is keen on Providing high-quality construction projects in compliance with all laws as well as the possibility of completing projects in less time than other traditional construction sites spend in building while complying with the concept of "green building", which refers to the use of sustainable building materials, work efficiency, reducing waste and reducing downtime rates. The site is out of business and low transportation emissions.

Mashhour company is also specialized in all demolition and construc-

tion works, where we demolish residential and service complexes and remove villas, palaces, and buildings, and after the demolition operations we remove all waste until your land receives space and ready for any construction work on it directly, and the company extracts All papers and permits necessary to complete the demolition process, and the company relies on modern machines for demolition work. And the land can also be rebuilt as requested by the person.
